Kriya Yoga is a spiritual gem which was brought from India to the USA in 1920, by Paramahansa Yogananda (1893-1952). Since then, many people world-wide, have walked the path of love and self-realization.

Kriya Yoga is a universal method uniting all major Yoga teachings, and enabling all-encompassing development. Paramahansa Yogananda's masterpiece, „The Autobiography of a Yogi“, has become a classic translated in many languages, which represents, still today, the main introduction to the „adventure of Kriya Yoga“.
