**About Kriya Yoga**

Kriya Yoga is an ancient science of meditation that was reintroduced to modern society by Mahavatar Babaji and popularized by Paramahansa Yogananda's book *Autobiography of a Yogi*. Kriya Yoga is open to all true seekers who wish to deepen their experience with the divine. Through a set of simple yet powerful techniques, the student experiences a greater sense of inner peace, joy and deep meditation.

**About Kriya Yoga Initiation**

Kriya Yoga can only be learned directly from an authorized teacher or Guru. The initiation is a simple, safe and scientific process by which the entire physical and mental state of the student is purified and the technique of Kriya Yoga is taught. The initiation is open to all seekers regardless of sect or creed. Pre-registration is required.

**About Yogacharya Durga Chunduri**

Yogacharya Durga Chunduri is a direct disciple of Paramahansa Hariharananda and in 1998 was authorized by him to initiate and teach Kriya Yoga. She serves the Kriya Yoga Institute as the resident yogacharya of the Chicago Kriya Yoga Center. She also is the Executive Director of Hand in Hand USA, a charitable organization formed to raise funds for the clinics and school started by Prajnana Mission in India.
