ABOUT KRIYA YOGA

Kriya Yoga is a simple, extraordinarily powerful, and scientific system of meditation designed to accelerate spiritual evolution. Revived in 1861 by **Mahavatar Babaji**, this ancient practice offers a direct path to higher consciousness by harmonizing the body, mind, intellect, and soul.

The word **Kriya** signifies the unity of **work and worship** (activity and divinity). By maintaining a continuous awareness of the indwelling soul, practitioners can transform even the most mundane daily actions into acts of worship.

Kriya Yoga is fundamentally based on the **science of breath**. The technique emphasizes the reciprocal relationship where the breath influences the mind and vice versa. This reveals the secret to mental control: **"Breath control is self-control. Breath mastery is self-mastery"**. By mastering the breath, a seeker stills the mind, ultimately allowing them to perceive God and attain self-realization.

This practice is:

- **Non-Sectarian:** It requires no religious conversion and can be practiced by individuals of any faith to deepen their personal connection with the Divine.
- **Accessible:** It requires no painful austerities, making it as suitable for all.
- **Transformative:** Sincere practice yields the immediate fruits of calmness, peace, joy, love, and compassion.

UNBROKEN LINEAGE AND TRANSMISSION

Authentic Kriya Yoga is preserved through a sacred **master-disciple relationship** passed down through an unbroken lineage of realized masters.

- **Our Lineage:** Mahavatar Babaji, Lahiri Mahasaya, Swami Sri Yukteswar Giri, Bhupendranath Sanyal Mahasaya, Paramahansa Yogananda, Swami Satyananda Giri, Paramahansa Hariharananda, and the current Guru, Paramahansa Prajnanananda.
- **Authentic Initiation:** To ensure the purity of the teachings, there are no correspondence courses. Initiation must be received directly from Paramahansa Prajnanananda or one of his authorized Yogacharyas (teachers).

YOUR INITIATION JOURNEY

The Kriya Yoga initiation is a significant spiritual step that unfolds over the course of a full weekend. To fully absorb the techniques and their benefits, **it is essential to clear your schedule and commit to the entire program.**

- **Friday Evening (Public Lecture):** An introductory session where the teacher explains how Kriya Yoga can transform your life, providing the philosophical foundation for the practice.
- **Saturday (Initiation & Instruction):** The formal initiation ceremony takes place from the morning into the early afternoon. Following the ceremony, the teacher provides step-by-step instructions on the techniques, explains their spiritual benefits, and holds an initial Q&A session.
- **Sunday (Refinement & Mastery):** Participation in the Sunday morning and afternoon sessions is **mandatory**. These guided meditations and spiritual lectures allow the teacher to ensure you have learned the techniques correctly and feel confident practicing them independently at home.

SACRED INITIATION CEREMONY

The path to learning Kriya Yoga begins with a sacred purification ceremony. Initially, basic techniques are taught to quiet the mind and prepare the seeker for the infusion of divine energy.

- **Direct Transmission:** The teacher initiates each person through direct contact, infusing three divine qualities—**sound, vibration, and light**—into the seeker. This process helps the initiate perceive the indwelling soul.
- **Fire Ceremony:** The event includes sacred mantras (explained in English) and a symbolic fire ceremony to cleanse the seeker on a deeper, subtle level.
- **Technique instruction:** The first level of Kriya techniques are taught for personal meditation.

To maintain the purity of the teachings, **initiates are asked not to share the techniques** with others. **No audio or video recordings are permitted** during the initiation program.
